

The 4th EHNS Robotic Conference

December 2-3, 2021

Paris, France

This 4th European Head and Neck Robotic Conference will be populated with panel discussions and keynote lectures from an international expert faculty.

Principles of robotic surgery will be reviewed and commented with preoperative and postoperative management in TORS.

Standard indications will be dissected, with tips and tricks from worldwide experts and experience learned. Expert and emerging indications and the future of robotic surgery will be discussed.

Past, present and future of clinical research in head and neck robotic surgery will be commented.

Dr. Philippe GORPHE Course Chairman

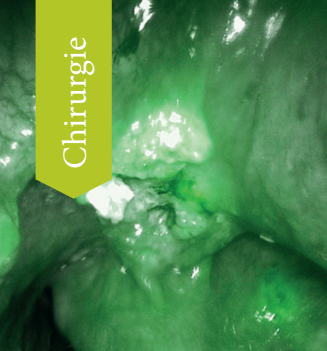

President – Groupe d'Etude des Tumeurs Tete et Cou (GETTEC)

Pr. Sylvain MORINIERE Course Chairman

President – Société Française de Carcinologie Cervico-Faciale (SFCCF)

Pr. Wojciech GOLUSINSKI

President – European Head & Neck Society (EHNS)

The 4th EHNS Robotic Conference

December 2-3, 2021

Paris, France

PRE-PROGRAM

- Anatomy in transoral surgery
- Preoperative assessment and Management of the postoperative course
- TORS for laryngeal cancer
- TORS for oropharyngeal cancer
- TORS for unknown primary
- Decision-making for reconstruction in TORS
- Surgical tips and tricks, and experience learned from mistakes and failures
- Expert and emerging indications, Future in robotic surgery
- Clinical research in head and neck robotic surgery
- Updates on thyroid robotic surgery
